SUMMARY

- Full-Stack Web Developer with strong expertise in the MERN stack, capable of building robust and scalable web applications.
- Hands-on experience in building and deploying full-stack projects with real-world features like authentication, state management, and RESTful APIs.
- Familiar with CI/CD workflows and deployment platforms like Render and Vercel.
- Basic understanding of Cybersecurity principles, emphasizing secure coding practices and data protection.
- Proven success in multiple hackathons and coding competitions, showcasing innovative problem-solving and technical creativity.

EDUCATION

Parul Institute of Technology

BTech (CSE) - 7.97 CGPA -

09 2022 – 05 2026

Vadodara, Gujarat

COURSEWORK / SKILLS

Languages

Python, JavaScript, TypeScript, C, Java

Frameworks

MERN Stack, NextJs

Tools

Docker, GenAi

Databases

MongoDB, SQL

Other Skills

Competitive Coding

PROJECTS

E-Commerce Platform 🔗 | [ReactJS](#), [MongoDB](#), [Node.js](#), [Express](#)

- Developed a full-featured e-commerce web application with user/admin roles.
- Implemented JWT-based authentication, product/category management, and a dynamic shopping cart.
- Integrated Cloudinary for image uploads and used MongoDB for data storage.
- Built responsive UI with React, Tailwind CSS, and React Router.

ScheduleMail App (Gmail Clone) 🔗 | [ReactJS](#), [MongoDB](#), [Node.js](#), [Express](#)

- Built a Gmail-like email management system with sending, scheduling (Node-Cron), and deleting emails.
- Used JWT for secure authentication and Nodemailer for email delivery.
- Enabled file attachments with Multer and secure post-send cleanup.
- Designed a modern UI with React and Tailwind CSS, structured backend with Express and MongoDB.

Expense Tracker 🔗 | [MongoDB](#), [Express](#), [ReactJS](#), [Node.js](#)

- Built a responsive expense management app with categorization, filtering, and real-time currency conversion.
- Implemented JWT-based authentication and persistent state using Redux Toolkit and Redux Persist.
- Designed an intuitive UI with Tailwind CSS and managed backend with Express.js and MongoDB.

LinkedIn Clone 🔗 | [Next.js](#), [ReactJS](#), [MongoDB](#), [TypeScript](#)

- Developed a LinkedIn-like social platform with post creation, likes/dislikes, commenting, and profile management.
- Integrated Clerk.js for authentication and Cloudinary for image uploads.
- Used Next.js API routes for backend logic and MongoDB Atlas for cloud storage.
- Designed a fully responsive UI with Tailwind CSS and enabled real-time user interaction updates.

Job Portal 🔗 | [ReactJS](#), [Node.js](#), [MongoDB](#), [Express.js](#), [Redux](#)

- Developed a full-stack job portal with secure JWT authentication and role-based features for companies and applicants.
- Implemented job posting, applicant tracking, and profile management with RESTful APIs.
- Used Cloudinary for image uploads, Redux Toolkit for state management, and Tailwind CSS for a modern UI.
- Deployed for real-world use, demonstrating scalable architecture and production readiness.

EXPERIENCE

Sudoku CodeClause

01 Dec, 2024 – 01 Jan, 2025

Intern

Remote

- **Key Skills:** ReactJS, Front-End Web Development, Bootstrap
- Built two projects using React: an Image Gallery demonstrating state management and a Web Music Player showcasing media handling and UI design.

Prodigy InfoTech

01 Dec, 2024 – 31 Dec, 2024

Intern

Remote, India

- **Key Skills:** JavaScript, CSS, HTML, ReactJS, Web Development
- Developed four web apps, including a stopwatch and tic-tac-toe game; enhanced skills in responsive design and interactive UI.

Intel Unnati Industrial Training

01 May, 2024 – 01 Jul, 2024

Intern

Remote, India

- **Key Skills:** Team Coordination, Python, Basic of Data Analysis
- Worked on optimizing CPU and NIC power usage through applied data analysis techniques.

Celebal Technologies

02 Jun, 2025 – Present

Summer Intern – Node.js Developer

Remote

- **Key Skills:** Node.js, Express, MongoDB, RESTful APIs, Backend Development
- Currently undergoing hands-on training in backend development, focusing on building RESTful APIs, integrating MongoDB databases, and applying Node.js in real-world, industry-oriented projects.

EXTRACURRICULAR

Hackathons and Coding Competitions

Multiple Events

Participant

Various Locations / Online

- Participated in several hackathons and coding competitions, showcasing problem-solving, teamwork, and rapid development skills.
- Earned participation certificates and received recognition for innovative solutions in select events.

CERTIFICATIONS

- NPTEL - Computer Networks and Internet Protocol
